Direct Thermal Stock Labels

Standard Fanfold

Standard Direct Thermal: Uncoated medium sensitivity product with excellent image quality. Manufactured with a permanent acrylic adhesive. Since this product is uncoated, it should be tested by the end-user for their application. It should not be used for applications that require extreme environmental resistance.

Premium Fanfold

Premium Direct Thermal: Top-coated medium sensitivity product with an all-temp/ freezer grade acrylic permanent adhesive. This product provides excellent image quality. Being top-coated allows for excellent results in most environmental conditions. It is recommended that any direct thermal product be tested in an end-user application before ordering production quantities.
